J. T. CASSINO,

St Johnsbury, Vt. Would enjoy the luxury of a good night's rest,

THE peculiar taint or infection which ve call Schofula lurks in the constitutions of multitudes of men. It either produces or is produced by an enof the blood, wherein

fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low hving, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, crustive and cutaneous affections. These, all having the same origin, require the same remedy, viz. purification and invigora-tion of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

dotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints. is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Sychilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual tuses may be found in Aven's American Atmaxac, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to discuse and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led as to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S Sansarannia, although it is composed of ingredients, some of which exceed the best of Surseparaist in alterative power. By its aid you way protect yourself from the sufferout the fool corruptions that rot and fester in the blood, purge out the causes of Cisease, and vigorous health wall follow. By its pecuhar virtues this remedicalizates the vital functions, and thus expels the dist uppers which bark within the system or barst out

We know the public have been deceived Ly many compounds of Sursuparello, that promised much and did nothing; but they will reither be deceived nor disappointed in this. Its virtues have been proven by abundust trial, and there remains no question of its surpassing excellence for the cure of the offliction diseases it is intended to reach. Although under the same name, it is a very lifter, at medicine from any other which has
